STANDARD CONTRACT

CONTRACTOR: Engineering Design & Construction, Inc. (EDC)
10250 SW Village Parkway, Suite 201
Port St. Lucie, Florida 34987

PROJECT: RFP #2020-101: Professional Environmental Consulting Services

CONTRACT FOR SERVICES

THIS AGREEMENT, hereinafter "Contract," made and entered into the 27 day of Jan., 2019²⁰²⁰ by and between **Engineering Design & Construction, Inc.** hereinafter referred to as "Professional" and the City of Stuart, Florida, a municipal corporation, 121 SW Flagler Avenue, Stuart, Florida 34994, hereinafter referred to as "City", for and in consideration of the following terms, conditions and covenants.

I. PURPOSE OF CONTRACT

The City intends to enter into a contract with Professional for provision of Environmental Consulting Services by the Professional and the payment for those services by City as set forth below.

II. SCOPE OF SERVICES

The Professional shall provide professional consulting services in all phases of any project for which a PURCHASE ORDER has been issued by the City pursuant to this Agreement as hereinafter provided on an as needed basis. These services will include serving as City's professional consulting representative for the Project, providing professional consulting consultation and advice and furnishing customary Environmental Consulting Services incidental thereto as described on the PURCHASE ORDER.

Section 1. Scope of Service

The Professional shall perform the work with City staff in advising the City and the City Commission regarding Environmental Consulting Services. The services will be those customarily attendant Environmental Consulting Services including, but not limited to the following:

- A. Environmental audits of development packages
- B. Environmental code revisions
- C. Environmental site assessments, phase 1 and phase 2
- D. Preliminary wetland and protected species assessments
- E. Environmental Permitting
- F. Wetland and preserve area management

G. General consultation and coordination

Assignment of tasks to the Professional will be at the sole discretion of the City. The Professional agrees to assist the City to conform to the annual budget amount for general Consulting work as established by the City. Work performed under this task shall be by Project Authorization describing the Scope, Schedule and Budget for each Project. The format for a Project Authorization shall be provided by the Professional. The City may choose to select any other firm or use in-house staff to perform any of the items described in this document in whole or in part in accordance with the Consultants' Competitive Negotiation Act (CCNA). Project assignments will be subject to scope definition on a task-by-task basis. Services will be completed in a timely manner and as agreed to in writing between the City and Professional prior to beginning of any work.

Environmental Consulting Services - Provide Environmental Consulting Services as required by the CITY. Provide Professional Continuing Environmental Consulting Services for the environmental audits of development packages, environmental code revisions, environmental site assessments, preliminary wetland and protected species assessments, permitting and general consultation and coordination. Provide Professional Continuing Environmental Consulting Services for the Public Works Department to include all of the above and wetland and preserve area management. CONSULTANT will endeavor to perform in a manner consistent with the degree of care and skill exercised by members of the same profession under similar current circumstances.

- Provide environmental code revisions as directed by the City
- Provide environmental site assessments
- All completed projects shall include a minimum of five (5) hard copy reports signed and sealed by the Professional in responsible charge.
- Shall provide environmental audits of development packages
- Staff Assistance - Provide assistance and consulting advice to CITY staff.
- Meetings and Representation - Attend meetings on behalf of and represent the CITY on technical issues as requested.

III. CONTRACT PROVISIONS

Section 1. Period of Service

1.1 Term of Contract

Upon award of this Contract, the effective date of this Contract shall be the date of execution of this Contract by both City and Professional. Term of this contract shall be for an initial period of one (1) year with the option of two (2) additional one (1) year renewals, upon the mutual written agreement of the parties.

Section 2. Compensation and Method of Payment

2.1 Fee Schedule

The Professional agrees to provide the services and/or materials as specified in the Contract Documents at the cost specified in Exhibit A. Except as otherwise provided in the solicitation, no amount shall be paid to Professional to reimburse Professional's expenses.

2.2 Invoices

Professional may submit invoices for compensation no more often than monthly, but only after the services for which the invoices are submitted have been completed. An original invoice is due within fifteen (15) days of the end of the month except the final invoice which must be received no later than sixty (60) days after this Agreement expires. Invoices shall designate the nature of the services performed and/or the goods provided.

2.3 Payment

City shall pay Professional within forty-five (45) days of receipt of Contractor's proper invoice, as provided in the Florida Local Government Prompt Payment Act.

To be deemed proper, all invoices must comply with the requirements set forth in this Agreement and must be submitted pursuant to instructions prescribed in this agreement. Payment may be withheld for failure of Contractor to comply with a term, condition, or requirement of this Agreement.

Notwithstanding any provision of this Agreement to the contrary, City may withhold, in whole or in part, payment to the extent necessary to protect itself from loss on account of inadequate or defective work that has not been remedied or resolved in a manner satisfactory to the City or failure to comply with this Agreement.

Section 3. Guarantee

The Professional guarantees to repair, replace or otherwise make good to the satisfaction of the City any damage caused during the work. Contractor further guarantees the successful performance of the work for the service intended. If the City deems it inexpedient to require the Contractor to correct deficient or defective materials or labor, an equitable deduction from the contract price shall be made therefore or in the alternative the City may sue for damages, or both.

Section 4. Audit

The Professional agrees that the City or any of its duly authorized representatives shall, until the expiration of three years after expenditure of funds under this Agreement, have access to and the right to examine any directly pertinent books, documents, papers, and records of the Contractor involving transactions related to this Agreement. The Professional agrees that payment(s) made under this Agreement shall be subject to reduction for amounts charged thereto which are found on the basis of audit examination not to constitute allowable costs under this Agreement. The Professional shall refund by check payable to the City the amount of such reduction of payments. All required records shall be maintained until an audit is completed and all questions arising therefrom are resolved, or three years after completion of the project and issuance of the final certificate, whichever is sooner.

Section 5. Professional Responsibility

5.1 Independent Contractor

The Professional is an independent contractor and is not an employee or agent of the City. Nothing in this Agreement shall be interpreted to establish any relationship other than that of an independent contractor, between the City and the Contractor, its employees, agents, subcontractors, or assigns, during or after the performance of this Agreement.

5.2 Responsibility for Work

The Professional shall take the whole responsibility of the Agreement Work and shall bear all losses resulting to him because of bad weather, or because of errors or omissions in his or its bid on the Agreement price, or except as otherwise provided in the Agreement Documents because of any other causes whatsoever.

5.3 Contractor's Records

As a condition precedent to Contractor filing any claim against City, Contractor shall make available to City all of Contractor's books and records (directly or indirectly related to the claim of Contractor's business) requested by City. Refusal to do so shall constitute a material breach of this contract and cause for dismissal of any litigation.

Section 6. Termination

6.1 Termination for Convenience

Either party upon a thirty (30) day written notice to the other party may terminate this Contract. In the event of any termination, Contractor shall be paid for all services rendered to the date of termination including all authorized reimbursable expenses.

6.2 Termination for Cause

The performance of the Contract may be terminated by the City of Stuart in accordance with this clause, in whole or in part, in writing, whenever the City shall determine that the contractor has failed to meet performance requirement(s) of the Contract. If the successful bidder should be adjudged bankrupt, or if he should make a general assignment for the benefit of his creditors, or if a receiver should be appointed on account of his insolvency, or if he should fail to provide properly skilled personnel or proper service in the sole discretion of the City, then the City can, after giving the successful bidder seven (7) days written notice, and without prejudice to any other right or remedy, terminate this Contract.

Section 7. City's Obligations

7.1 Project Manager

The Project Manager for the City with the authority to act on the City's behalf with respect to all aspects of the Project is:

Dave Peters, Public Works Director
[772-781-3472 x5292](tel:772-781-3472)

The Project Manager for the Contractor with authority to act on the Contractor's behalf with respect to all aspects of the Project is:

Tobin Overdorf, Vice President
[772-462-2455](tel:772-462-2455)

Section 8. Persons Bound by Contract

8.1 Parties to the Contract

The persons bound by this Contract are the Contractor and the City and their respective partners, successors, heirs, executors, administrators, assigns and other legal representative.

8.2 Assignment of Interest in Contract

This Contract and any interest or services associated with this Contract may not be assigned, sublet or transferred to another by either party without the prior written consent of the other party. Nothing contained herein shall be construed to prevent Contractor from employing such independent Contractors, associates and subcontractors as Contractor may deem appropriate to assist in the performance of the services hereunder.

8.3 Other Entity Use

The successful Contractor may be requested to convey its proposal prices, contract terms and conditions, to municipalities or other governmental agencies within the State of Florida.

8.4 Rights and Benefits

Nothing herein shall be construed to give any rights or benefits arising from this Contract to anyone other than Contractor and the City.

Section 9. Indemnification of City

Contractor assumes the entire responsibility and liability for all damages or injury to all persons, and to all property, caused by the Contractor or Contractor's employees, agents, consultants or sub-contractors, and Contractor shall to the fullest extent allowed by law, indemnify and hold harmless the CITY, and its officers and employees, from liabilities, damages, losses, and costs, including, but not limited to, reasonable attorneys' fees, to the extent caused by the negligence, omission, or intentional conduct of the Contractor and other persons employed or utilized by the Contractor in the performance of the contract. Specific consideration for this indemnity is \$10.00, the receipt and sufficiency of which are hereby acknowledged by Contractor.

Section 10. Insurance.

10.1. Requirements

Contractor shall procure and maintain insurance, in the amounts noted in the Request for Proposal which names the Contractor, its officers, board members, employees and agents as additional insured on General Liability and Automobile Liability insurance policies. Such certificate must contain a provision for notification of the City 30 days in advance of any material change or cancellation. The City by and through its Risk Manager, reserves the right to review, modify, reject or accept any required policies of insurance, including limits coverages or endorsements, herein from time to time throughout the term of this contract. All insurance carriers must have an A.M. Best Rating of at least A:VII or better. When a self-insured retention or deductible exceeds \$5,000, the City reserves the right, but not the obligation, to review and request a copy of contractor's most recent annual report or audited financial statement. All contractors, including any independent contractors and subcontractors utilized, must comply with the insurance requirements as set forth in the documents identified and listed in the Request for Proposal.

10.2 Certificate of Insurance

Certificates of all insurance required from the Contractor shall be attached to this agreement and shall be subject to the City's approval for adequacy.

Section 11. Professional Standards

All work performed by Contractor will be in accordance with the highest professional standards and in accordance with all applicable governmental regulations.

Section 12. Non-Appropriation

This Contract is deemed effective only to the extent of the annual appropriations available.

Section 13. General Conditions

13.1 Venue in Martin County

Jurisdiction a venue for any lawsuit to enforce the terms and obligations of this Contract shall lie exclusively in the County Court or the Circuit Court in and for Martin County, Florida.

13.2 Laws of Florida

The validity, interpretation, construction, and effect of this Contract shall be in accordance with and governed by the laws of the State of Florida.

13.3 Attorney's Fees and Costs

In the event the Contractor breaches or defaults in the performance of any of the terms, covenants and conditions of this Contract, the Contractor agrees to pay all damages and costs incurred by the CITY in the enforcement of this Contract, including reasonable attorney's fees, court costs and all expenses, even if not taxable as court costs, including, without limitation, all such fees, costs and expenses incident to appeals incurred in such action or proceeding.

13.4 Mediation as Condition Precedent to Litigation

Prior to the initiation of any litigation by the parties concerning this Contract, and as a condition precedent to initiating any litigation, the parties agree to first seek resolution of the dispute through non-binding mediation. Mediation shall be initiated by any party by serving a written request for same on the other party. The parties shall, by mutual agreement, select a mediator within 15 days of the date of the request for mediation. If the parties cannot agree on the selection of a mediator then the CITY shall select the mediator who, if selected solely by the CITY, shall be a mediator certified by the Supreme Court of Florida. The mediator's fee shall be paid in equal shares by each party to the mediation.

13.5 Contract Amendment

The City reserves the right to delete, add or revise locations under this proposal at any time during the contract term when and where deemed necessary. If any locations are added or deleted from the contract, the rate quoted shall be used to determine the adjusted contract price.

No modification, amendment or alteration in the terms or conditions contained in this Contract shall be effective unless contained in a written documents executed with the same formality and of equal

dignity herewith. This Contract constitutes the entire agreement between the parties, and no prior, or contemporaneous oral agreement shall be binding on either party. If either party fails to enforce a portion of this entire Contract, it shall not constitute a waiver of the same.

13.6 Contractual Authority

By signing this Contract the Contractor swears or affirms, under penalty of perjury, that this is a valid act of the Contractor, and that no later claim shall be made by the CONTRACTOR that the Contract is invalid or an *ultra vires* act, by reason of a failure to have the proper authority to execute the Contract. In the event that a court of competent jurisdiction later determines that the Contract is or would be null and void for failure of the signatory to have proper or complete authority, this Contract shall nonetheless be deemed valid under the theory of "apparent authority," or in the sole alternative of the City, shall be deemed to be the act of the signatory, as an individual, who shall be fully responsible for its complete performance.

13.7 Sovereign Immunity

Nothing contained herein shall be construed or interpreted as a waiver of the sovereign immunity liability limits established under chapter 768.20 Florida Statutes as amended.

Section 14. Public Records

Note: If the Contractor has questions regarding the application of Chapter 119, Florida Statutes, to the Contractor's duty to provide public records relating to this contract, contact the office of the City Clerk as the custodian of Public Records for the City of Stuart, and all the respective departments at 772-288-5306 or email mkindel@ci.stuart.fl.us, City of Stuart, City Clerk 121 SW Flagler Avenue, Stuart, Fl. 34994 per F.S. 119.12.

In compliance with F.S. 119.0701 the Contractor shall:

- a) Keep and maintain public records required by the public agency to perform the service.
- b) Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in this chapter or as otherwise provided by law.
- c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the Contractor does not transfer the records to the public agency.
- d) Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of the Contractor or keep and maintain public records required by the public agency to perform the service. If the Contractor transfers all public records to the public agency upon completion of the contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

A request to inspect or copy public records relating to a public agency's contract for services must be made directly to the public agency. If the public agency does not possess the requested records, the public agency shall immediately notify the Contractor of the request, and the Contractor must provide the records to the public agency or allow the records to be inspected or copied within a reasonable time.

If a Contractor does not comply with the public agency's request for records, the public agency shall enforce the contract provisions in accordance with the contract.

A Contractor who fails to provide the public records to the public agency within a reasonable time may be subject to penalties under F.S. [119.10](#).

If a civil action is filed against a Contractor to compel production of public records relating to a public agency's contract for services, the court shall assess and award against the Contractor the reasonable costs of enforcement, including reasonable attorney fees, if:

1. The court determines that the Contractor unlawfully refused to comply with the public records request within a reasonable time; and
2. At least 8 business days before filing the action, the plaintiff provided written notice of the public records request, including a statement that the Contractor has not complied with the request, to the public agency and to the Contractor.

A notice complies with subparagraph 2 above, if it is sent to the public agency's custodian of public records and to the Contractor at the Contractor's address listed on its contract with the public agency or to the Contractor's registered agent. Such notices must be sent by common carrier delivery service or by registered, Global Express Guaranteed, or certified mail, with postage or shipping paid by the sender and with evidence of delivery, which may be in an electronic format.

A Contractor who complies with a public records request within eight (8) business days after the notice is sent is not liable for the reasonable costs of enforcement.

Section 15. Exhibits

The following Exhibits are attached to and made a part of this Contract:

Exhibit A – “Fee Schedule”

Exhibit B - "Proposal as Submitted by Respondent and Accepted by City"

Exhibit C - “Original Request for Proposal as Issued by City, including all Addenda”

Exhibit D - “Certificate of Insurance”

PROPOSAL FOR SERVICES

ENGINEERS • SURVEYORS • ENVIRONMENTAL

City of Stuart
Procurement Division
121 SW Flagler Avenue
Stuart, FL 34994

To Whom It May Concern,

Balancing the natural environment with the mounting pressures of urbanization and a projected increase in population requires experience, responsiveness, and foresight. As a partner to the City of Stuart, Engineering Design & Construction, Inc. (EDC) can provide the local, experienced personnel necessary to address the challenges and still be able to maintain the unique balance between the natural environment and the City of Stuart's continued growth. In fact, our basic environmental philosophy is, "Where environmental protection and economic potential meet". Based on this and other factors highlighted below, EDC is a natural fit for the proposed services agreement with the City of Stuart.

A veteran-owned small business, EDC was founded in 2003 and has been a basic fixture within the community for over sixteen years. Our firm, and various personnel, has served both public and private clients within the City of Stuart and Martin County. Our team has served on the Martin County Business Development Board, the Martin County Historic Preservation Committee, the Rivers Coalition, the Metropolitan Planning Organization, and varying CRA boards throughout the County and City. On a professional basis we have worked with multiple department staff members from the City's planning, public works, building and engineering departments. Previously, our staff members helped to develop the City's tree code and other environmental regulations. Within the community, we continue to be a part of the Stuart/Martin County Chamber, the Palm City Chamber, local community events, and our staff volunteers with many local charities. If selected, we are able to bring the knowledge and experience of these relationships with staff and the community to our services agreement.

EDC is staffed with professional scientists, engineers, and surveyors that are experienced and educated in their field. Each project manager or senior scientist has a master's degree (at a minimum) and at least ten years of experience as an environmental professional. Each scientific staff member served in both the regulatory and the private consulting realm thus allowing for a crossover of talent and experience. Each scientist has also completed significant research projects in a specific field of study from oceanic, to estuarine, to upland ecosystem environments. Several members of our staff have been involved with the formation of local regulations pertaining to the environment. Our staff continues to sharpen their skills as each member of EDC is required to continue their training by completing at least one college level course per annum of employment. Members of our staff previously served the City of Stuart under a similar contract and conducted reviews of projects expressly on behalf of the City of Stuart. The experience, education, training of our staff is paramount to what we can provide the City of Stuart under the proposed services agreement.

Within the man-made environment, EDC also has lengthy project experience including ASTM E1527-13 Phase I Site Assessments, Phase II Assessments, soil and groundwater

collection, lead remediation, groundwater remediation, fuel tank removal oversight, solid waste removal oversight and compliance, and remediation plans. Our team has provided reports for banks, County purchases, private individuals, the State of Florida, and various real estate transactions. Our site assessments have been performed within ¼-acre parcels up to 38,000-acre parcels. EDC staff has certified Hazwopper personnel as well as septic tank and well permitting personnel. Our experienced staff provides technical and professional support with engineering, design, CADD, and survey solutions. As a testament to our abilities, during the Deepwater Horizon oil disaster, our firm was selected to lead the emergency response team for the Florida Keys and the Tortugas. Whether it is an assessment, a sampling, a clean-up or a remediation, EDC can provide the City of Stuart with professional staff to complete the task.

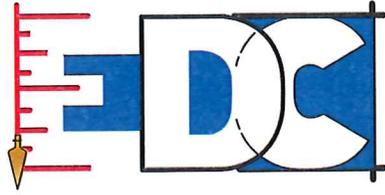

EDC's environmental division (FKA Crossroads Environmental) has previously been authorized to complete service contracts with Indian River County, Martin County, City of Stuart, St. Lucie County, St. Lucie County Mosquito Control District, Natural Resource Conservation Service (NRCS), Jonathan Dickinson Park, Florida Power & Light, National Aeronautic & Space Administration (NASA), South Florida water Management District (SFWMD), the Federal Highway Administration, Federal Aviation Administration (FAA), the Veteran's Administration, the National Guard, and the US Government. Under our GSA contract EDC (fka Crossroads) completed tree surveys in St. Thomas, created woodstork habitat, monitored various wetlands, conducted economic studies associated with the listing of an endangered species (*Coqui lareno*), sampled various federal sites for contamination, and other tasks assigned under the contract. We have a proven record of success with our public contracting efforts and we bring that to the City of Stuart within this service agreement.

As the City reviews the firms applying for this Request For Qualifications, it is our belief that EDC presents the City with a unique firm that provides solid science, a proven track record, and experience within the multiple environmental and redevelopment challenges faced by staff. As a partner to the City, EDC can use their regional experience, scientific knowledge, development experience, regulatory knowledge, and industry relationships to aid in the completion of assigned tasks. Our location allows us to respond quickly to staff's needs, further providing benefits to the City. The EDC team will be a strong partner with the City that can provide almost every service outlined within the service agreement. Based on these factors, we believe we present the best option to the City for Environmental Consulting Services. Our team looks forward to the opportunity to work with you.

Sincerely,

Tobin R. "Toby" Overdorf, MS, MBA
Vice President

TAB 1 – CORPORATE STRUCTURE AND LOCATION

Engineering Design & Construction, Inc. (EDC) is a veteran-owned small business founded in April of 2003, in St. Lucie County, and has grown in size and experience over the years. Beginning solely as a Civil Engineering firm; EDC has added Land Planning, Boundary & Topographic Survey, and Environmental Consulting to our team. Atlantic Design Group of Florida, Inc. and Geomatics Services, Inc. officially merged with EDC in May of 2015 and Crossroads Environmental Consultants, Inc. officially merged with EDC in September of 2016 thus combining the expertise of their fields under one roof.

EDC's corporate office is located in Tradition within the Christ Fellowship building. Our corporate address is as follows:

10250 SW Village Parkway,
Suite 201
Port St. Lucie, FL 34987
772-462-2455

A location map showing our location in relation to the City of Stuart is provided in Tab 1 – Corporate Structure.

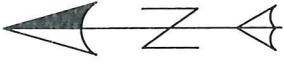

EDC's corporate structure is as follows:

Roderick J. Kennedy, PE – President & Treasurer
Tobin R. Overdorf, MS, MBA – Vice President
Michael T. Owen, PSM – Vice President
Bradley J. Currie, AICP – Vice President & Secretary

With all of these disciplines under one roof we are able to perform multiple tasks from land development and planning, all aspects of state and local permitting, surveying aspects including boundary and topographic surveys with drone capabilities, mean high water surveys, elevation certificates and environmental services including gopher tortoise permitting, State and Federal wetland permitting, preserve management, local development review, and Phase I and Phase II environmental assessments.

SUMMARY

Mr. Overdorf has over 27 years of experience in the fields of project entitlements, regulatory compliance, permitting, marine biology, ecology, physiology, environmental science, contamination, estuarine restoration, agricultural compliance, and business management. He has both public and private work experience throughout the SE United States and into the Caribbean. His professional experience includes permit application assembly, regulatory review, personnel oversight, tracking, compliance and preparation of federal and state regulatory permits for both public and private sector clients. Mr. Overdorf is experienced in leadership roles and has served in a project management capacity for a multitude of regulatory projects funded and managed by federal, state, and local governmental agencies. He is an FDEP certified Stormwater Inspector, FFWCC Certified Gopher Tortoise Agent, and federally certified under the HAZWOPPER certification process. He also holds a certificate as a John Maxwell certified speaker and a graduate of the Kaleo School of Biblical Leadership.

CURRENT PROFESSIONAL EXPERIENCE

Engineering Design & Construction, Inc., Vice President, Shareholder

Currently serve as the head of the environmental division of this full service permitting and entitlements firm based in Port St. Lucie, Florida. The rapidly growing firm includes civil engineering, surveying, planning, and environmental specialties. The service area extends throughout peninsular Florida and into the Caribbean, with a large concentration of work within the Treasure Coast.

Crossroads Environmental Consultants, Inc., President, Founder

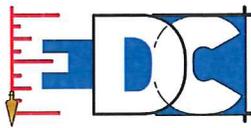

Responsible for the daily operations of a full service environmental consulting firm specializing in wetland, listed species, and development permitting. Oversaw the expansion of the business from a local company to a nationally recognized, US Government certified company capable of performing throughout the domestic US and within the northern Caribbean. Continue to manage and create projects associated with natural resource research, wetland restoration, and listed species relocation. Escorted the company through record profits and the subsequent recession after 2007.

Beetle Trappers, Inc., President, Founder

After reviewing the beetle damage to weakened pine trees and forested areas as the result of high wind, excessive rain, and local construction activities, Beetle Trappers was founded to give landowners a green alternative to beetle control. The pine bore beetle is trapped through pheromone emissions and Beetle trappers has proven its ability to significantly reduce tree deaths due to beetle infestation. Took the company from zero customers to a healthy regional base in four counties and continuing to expand.

Torrey Pines Institute for Molecular Studies

Selected by the CEO and Board of Trustees to serve as a Trustee of the international molecular studies institute. Responsibilities include the oversight of senior staff, review of project budgets, and development of annual budgets. Also responsible for outside lobbying of donors, funding sources, and study opportunities within the institute's zone of influence.

PROFESSIONAL PROJECT EXPERIENCE

Deep Horizon Spill Response, Florida Keys

Selected to coordinate the State, Federal, and local response to reports of oil spills (sheens, tar balls, or floating crude) within the Florida Keys and the Florida Keys Natural Marine Sanctuary. Completed SCADD training with the US Coast Guard, Sanctuary Staff, FDEP, and local law enforcement as part of the effort. Responsible for coordinating first responders, assessments, and cleanup of any and all identified or suspected oil incidents as a result of the Deep Horizon accident.

Ginn Development SE Region

Oversaw the acquisition, entitlement, and development of Ginn Company projects in the SE Region of the company. Territory included projects in Palm Beach, Martin, St. Lucie, Indian River, and Brevard Counties. Responsibilities also extended to the Bahamas. Completed due diligence, budgeting, staffing, and project timelines for over \$500 million in raw assets. Reported directly to the Senior Vice President and President of the company while responsible for the entitlements on multiple projects with multiple timelines. Regularly presented to investors, potential residents, and permitting authorities.

Evans Companies

Completed a parcel by parcel study on over 40,000 acres of regional land holdings to determine strategies for highest and best use of the properties after being affected by citrus canker and citrus greening. Reviewed properties to determine crops/strategies for future including replanting, conservation, development, and water farming.

Kissimmee River Floodplain Restoration Research

Selected to conduct the first ever study of floodplain fish on the Kissimmee River prior to restoration. The study was used as a baseline for restoration efforts associated with the largest de-channelization project in North America. The two year study documented the species density and diversity throughout the historic floodplain, prior to restoration.

Colvin & Company

Worked with regional agricultural company to reclaim and replant over 14,000 acres from citrus to row crops. Coordinated hazardous waste cleanup and aided with water use and environmental resource permitting with both State and Federal agencies. Conducting permit compliance of drainage and irrigation system.

Sailfish Regatta

Coordinated with 18 local, state, and federal agencies to conduct a high speed boat race next to SR A1A in Stuart, Florida and also coordinated and permitted the closure of an adjacent bridge for 60 hours during racing. Coordinate with and conduct USFWS mandated manatee and sea turtle observation from both fixed and airborne operations. Completed US Coast guard Permitting for the race and coordinating with local and state law enforcement.

Florida Forever/ Lands For You Program

Completed environmental assessments on several parcels totaling well over 70,000 acres throughout peninsular Florida including parcels in Martin County. Reviewed wetlands, potential contamination sources, listed species populations, and overall ecological state of lands slated for purchase under the state program. Reported directly to FDEP.

Listed Species and Vegetative Inventory, St. Thomas, USVI

Conducted a species diversity study within a proposed expansion of the highway system in St. Thomas, USVI. The study was funded by the Federal Highway Administration and traversed forested, mountain, and wetland habitats. This included surveys for endangered reptiles and avian species. The report was utilized to mitigate impacts to the native species.

Treasure Coast Mitigation Bank

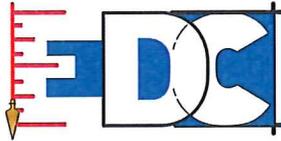

Federal and state permitting of a ±3,000 acre wetland mitigation bank. Involved surveys and critical habitat management plans for listed species such as the Everglades Snail Kite, Woodstork, and various wading birds. Performed project management and permit tracking to ensure compliance with all financial as well as biological permit success criteria for both federal (ACOE, FWS, NOAA) and state (SFWMD, SJWMD, FDEP) agencies.

Expert Witness

Qualified Expert Witness - 1000 FRIENDS OF FLORIDA, INC., MARTIN COUNTY CONSERVATION ALLIANCE, INC., AND DONNA SUTTER MELZER, Petitioners, vs. MARTIN COUNTY AND DEPARTMENT OF COMMUNITY AFFAIRS, Respondents, and TURNER GROVES, LTD, AND CONSOLIDATED CITRUS LIMITED PARTNERSHIP Case No. 10-10007M

Qualified Expert Witness – V.J. USINA CONTRACTING, INC. Plaintiff vs DOCTORS VILLAGE PARTNERS, LLC, ACCUBUILD DEVELOPMENT, INC., and ACCUBUILD CONSTRUCTION CORP. Case No. CA09-3997 – Circuit Court, Seventh Judicial Circuit, St. Johns County - provided expert testimony and deposition regarding tree mitigation and tree replacement value.

Qualified Expert Witness (Biology and Ecology) – MARTIN COUNTY LAND COMPANY (Petitioner) vs. MARTIN COUNTY (Respondent) – Case #15-0300GM – State of Florida, Division of Administrative Hearings

Madison Quinones, BS Field Biologist

10250 SW Village Parkway, Suite 201
Port St. Lucie, Florida 34987
Ph: 772-462-2455
Cell: 772-579-8339
madisonquinones@edc-inc.com

SUMMARY

Ms. Quinones has over 5 years of experience in the fields of marine biology, wildlife ecology, environmental science, endangered species monitoring, public speaking, and environmental education. Her professional experience includes interning for Indian River County Sea Turtle Program, interning at the Florida Oceanographic Society, and currently works as an environmental field biologist for EDC, Inc. She is an FDEP certified Stormwater Inspector, FWC Licensed Gopher Tortoise Agent, and affiliate member of Martin County Realtors and Realtors of the Palm Beaches and Greater Fort Lauderdale. Ms. Quinones resides in Port St. Lucie, Florida.

EXPERIENCE

ENGINEERING DESIGN & CONSTRUCTION, INC.

Field Biologist (2018-Current)

Conducted mitigation monitoring/reports, NPDES inspections, wetland delineations, environmental assessments, permit application and compliance, Phase I & II assessments, soil sampling, gopher tortoise surveys and relocation projects, and endangered species surveys throughout the state of Florida.

NPDES Certified Inspector

FWC Licensed Gopher Tortoise Agent

INDIAN RIVER COUNTY SEA TURTLE PROGRAM

Intern (May 2017-August 2017)

Identified sea turtle species, located and marked nests, and conducted nest excavations, collect data in field using novel technology, assisted staff biologist with daily nesting surveys, assisted staff biologist with documentation and removal of live and dead stranded marine life, assisted staff biologist with documentation of adult and hatchling disorientations, conducted beachfront lighting surveys, worked outreach events, assisted education coordinator with summer camp, and assisted with office work.

WILDLIFE ECOLOGY AND CONSERVATION STUDY ABROAD IN BELIZE

Student (Spring 2016)

Studied wildlife, habitats, peoples, and conservation issues, solutions, practices, and practitioners throughout the country of Belize. Systems studied included, lowland pines, savannahs, rainforests, shrubs, wetlands, and coastal and marine (the Belize Barrier Reef). The people and their wildlife practices or lack thereof, studied included; Maya, Garifuna, Creole, and Mennonites. Studied different habitats and the different conservation issues that each one experiences along with how the people interact differently with each one, allowing for better understanding of the many intricate parts involved with the wildlife ecology and conservation of an area.

FLORIDA OCEANOGRAPHIC SOCIETY

Education Intern (May 2015-July 2015)

Presented two, half an hour informational programs daily, manned the touch-tank exhibit and stingray experience, and worked the summer camp teaching kids about the local wildlife and conservation.

EDUCATION

University of Florida, Gainesville, FL
- Bachelors of Science in Wildlife Ecology and Conservation

CERTIFICATION AND TRAINING

FL Fish and Wildlife Gopher Tortoise Agent
Qualified Stormwater Management Inspector -- Inspector #41310

PROFESSIONAL AFFILIATIONS

Martin County Realtors
Realtors of the Palm Beaches and Greater Fort Lauderdale

PROFESSIONAL PROJECT EXPERIENCE**Wild Turkey Sand Mine - Vero Beach, FL**

Conducted and wrote up the report for the 2018 Northern Crested Caracara monitoring for the Wild Turkey Sand Mine. The goal of this project is to determine the potential effects of mining on crested caracara during the breeding season.

Rio Town Center – Jensen Beach, FL

Conducted an environmental assessment, Phase I Environmental Site Assessment, scrub jay survey, and gopher tortoise survey. This project was made up of approximately 29 acres and six parcels comprised of developed and undeveloped property.

Ginn Ranch – St. Lucie County, FL

Conducted a Phase I Environmental Site Assessment on Ginn Ranch which is made up of approximately 300 acres and 23 parcels of agricultural land.

Brightline and Virgin Trains – Brevard to Palm Beach County, FL

Conducted gopher tortoise surveys and bucket trapping, covering approximately 100 miles of FEC Railway.

Professional Record

Mr. Kennedy has been working in St. Lucie County for over 23 years. His experience covers all aspects of civil engineering land development. He is President of the civil engineering firm of Engineering Design & Construction, Inc. (EDC, Inc.) located and established in St. Lucie County, Florida.

Mr. Kennedy's extensive career has been exposed to all facets of civil engineering land development to include design, permitting, local approvals, construction inspection, modeling, project representation, due diligence, report writing, engineering reports, HOA representation and other miscellaneous services.

Mr. Kennedy's involvement with local professional affiliations exposes him to the most recent political atmosphere and ever-changing approval requirements thus allowing him to provide valuable recommendations to his clientele. He is currently serving on St. Lucie County's Chamber of Commerce Board of Directors and looks forward to his continued commitment to community involvement.

As President of EDC, Inc., his responsibilities include typical Owner functions to include daily operation, marketing, budgeting, employee management, project management, and technical expertise. The challenges of Ownership continue to test his skills but the message he sends his employees and clients is simple. Build an engineering firm that is considered an industry leading company for providing employee satisfaction. Ultimately, this atmosphere will continue to encourage our staff to provide the highest level of CLIENT services leading to long-term relationships.

Professional Record

Mr. Owen has over 32 years of experience in surveying on the Treasure Coast. In 2015, Mr. Owen merged his surveying company with Engineering Design & Construction (EDC) to form a multi-discipline firm that offers civil engineering, surveying and land planning services to their clients. He oversees the daily operation of the survey department of EDC, from field surveying, mapping and construction aspects for a variety of projects for the firm.

Mr. Owen's expertise throughout Martin, St. Lucie, Indian River and Okeechobee Counties has led him to participate in multiple projects with a variety of surveying components from Boundary Survey, Topographic Surveys, Route Surveys, Sectional Land Surveys, Subdivision Platting, Condominium exhibits, Sketch and Descriptions, Builders packages, Construction Layout, and Land Development and its process. Mr. Owen's clients have included St. Lucie and Martin Counties, City of Port St. Lucie, St. Lucie County School Board, Fort Pierce Utilities Authority, AT&T and FP&L.

Conflict of Interest Disclosure Form

Conflict of Interest Disclosure Form

The award of this contract is subject to the provisions of Chapter 112, Florida Statutes. All Proposers must disclose within their proposal: the name of any officer, director, or agent who is also an employee of the City of Stuart.

Furthermore, all Proposers must disclose the name of any City employee who owns, directly or indirectly, an interest in the Proposer's firm or any of its branches.

The purpose of this disclosure form is to give the City the information needed to identify potential conflicts of interest for key personnel involved in the award of this contract.

The term "conflict of interest" refers to situations in which financial or other personal considerations may adversely affect, or have the appearance of adversely affecting, an employee's professional judgment in exercising any City duty or responsibility in administration, management, instruction, research, or other professional activities.

Please check one of the following statements and attach additional documentation if necessary:

To the best of our knowledge, the undersigned firm has no potential conflict of interest due to any other Cities, Counties, contracts, or property interest for this proposal.

The undersigned firm, by attachment to this form, submits information which may be a potential conflict of interest due to other Cities, Counties, contracts, or property interest for this proposal.

Drug-Free Work Place Form

**DRUG-FREE WORK PLACE
CERTIFICATION**

Whenever two (2) or more bids/proposals, which are equal with respect to price, quality, and service, are received by the City of Stuart for the procurement of commodities or contractual services, a bid/proposal received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. In order to have a drug-free workplace program, a business shall:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of controlled substances is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.
3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in number (1).
4. In the statement specified in number (1), notify the employees that as a condition for working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction or plea of guilty or nolo contendere to any violation of Chapter 893, Florida Statutes or of any controlled substance law of the United States or any singular state, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community by any employee who is so convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of Section 287.087, Florida Statutes.

Authorized Gopher Tortoise Agent

FLORIDA FISH AND WILDLIFE CONSERVATION COMMISSION
Division of Habitat and Species Conservation
Species Conservation Planning Section
620 South Meridian Street, Mail Station 2A
Tallahassee, Florida 32399-1600
(850) 921-1031

Permittee Name: Tobin Overdorf Permit Number: GTA-13-00007D
Permittee Address: Crossroads Environmental A Division of EDC Effective Date: February 22, 2019
Inc. Expiration Date: March 13, 2021
10250 SW Village Parkway Suite 201
PORT SAINT LUCIE, FLORIDA 34987
UNITED STATES

IS AUTHORIZED TO:

1. Conduct gopher tortoise surveys
2. Capture gopher tortoises using bucket traps
3. Capture gopher tortoises using live traps
4. Capture gopher tortoises using hand shovel excavation of gopher tortoise burrows
5. Mark, transport, and release captured gopher tortoises at recipient sites
6. Supervise backhoe excavation of gopher tortoise burrows to capture gopher tortoises

Permittee Signature: _____ Date: _____

Not valid unless signed. By signature, confirms that all information provided to issue the permit is accurate and complete, and indicates acceptance and understanding of the provisions and conditions listed below. **Any false statements or misrepresentations when applying for this permit may result in felony charges and will result in revocation of this permit.**

Authorized By: Eric Seckinger Authorized for: Eric Sutton, Executive Director

Authorizing Signature: _____ Date: 02/22/2019
Species Conservation Planning Section

Is Authorized To (Continued)

This permit is in effect an amendment and supersedes all previous versions. All amended conditions and provisions of the previous permit (changed or new items) are indicated in bold text.

PERMIT CONDITIONS AND PROVISIONS:

- 1 Authorization to conduct the specified activities in association with the relocation of gopher tortoises in Florida is subject to Rules 68A-9.002 and 68A-27, Florida Administrative Code (F.A.C.), the Gopher Tortoise Permitting Guidelines (April 2008 – revised January 2017) [hereafter, the "Permitting Guidelines"], and subsequent revisions of these guidelines that are in effect at the time the authorized activities are conducted, and subject to the following provisions/conditions.
- 2 Authorized activities are also predicated and conditioned on the information and assurances provided in the Permittee's **02/18/2019 application**, the assurances of which are herein incorporated by reference.
- 3 The Permittee shall only take, attempt to take, pursue, hunt, harass, capture, possess, or transport gopher tortoises, or molest, damage or destroy any gopher tortoise burrows when such activity is authorized by a separate permit (e.g., Conservation, 10 or Fewer Burrows, Temporary Exclusion, Recipient Site, Scientific Collecting) issued by the FWC for a specified property that authorizes the Permittee to capture and possess gopher tortoises from or within that property.
- 4 Gopher tortoise burrow surveys must be conducted in accordance with the Permitting Guidelines, or as amended. Surveys must be conducted no more than 90 days prior to submitting a relocation application.
- 5 Tortoises shall only be relocated when the low temperature at the recipient site is forecasted by the National Weather Service to be above 50° Fahrenheit for three consecutive days after release (including the day of relocation). This three-day window of milder overnight temperatures is required to allow the relocated tortoises to settle into the recipient site and to reduce the chance of cold-related stress or mortality.

- 6 Captured gopher tortoises that show signs of disease (i.e., nasal and ocular discharge, emaciation, etc.) shall not be relocated off-site to the authorized recipient site. At the Permittee's discretion, symptomatic tortoises may be: relocated on-site; transported to and quarantined at a FWC-licensed wildlife rehabilitation center (list available upon request) or licensed veterinary facility for treatment and subsequent relocation of recovered, non-symptomatic gopher tortoises along with others from the population; transported and donated to a FWC-permitted disease research program; or humanely euthanized by a licensed veterinarian when disease is advanced.
- 7 Gopher tortoises released at a recipient site shall be released into an enclosure in conformance with the FWC enclosure requirements specified in the Permitting Guidelines, or as amended. Gopher tortoises should be released near existing abandoned burrows or excavated starter burrows at the recipient site.
- 8 Marking of gopher tortoises must be done for all permits except for 10 or Fewer Burrows permits with on-site relocation. All tortoises must be marked with marginal scutes of tortoises ≥ 130 mm carapace length (CL) drilled or notched, and marginal scutes of juveniles < 130 mm CL notched. Passive Integrated Transponder (PIT) tags may be used as an alternative to drilling or notching the marginal scutes.
- 9 During transport, gopher tortoises must be held in shaded conditions and in individual containers large enough to allow the tortoise to turn around. Tortoises must not be held more than 72 hours after capture unless otherwise authorized by FWC permit.
- 10 Supervised backhoe excavation of gopher tortoise burrows shall only take place with at least two people present at each burrow. A backhoe operator and a person on the ground at the burrow is required at all times during backhoe excavation. Backhoes must be equipped with a flat blade on the bucket for digging. Excavation of a burrow should not be started unless it can be fully excavated in the same day. Burrow excavation is not complete until the burrow terminus is reached and all side chambers are found and completely excavated.
- 11 This permit does not authorize Permittee access to any public or private properties. Permission to access the property must be secured from the appropriate landholders prior to undertaking any work on such properties.
- 12 This permit is non-transferable and must be readily available for inspection at all times while engaging in the permitted activities. This permit can be suspended, revoked or not renewed for just cause pursuant to 68-1.010, Florida Administrative Code and Chapter 120, Florida Statutes. Criteria for suspension, revocation, or non-renewal of authorized agent permits and registered agents can be found in the Permitting Guidelines, or as amended.
- 13 The activities authorized under this Permit must be carried out by the Permittee or the Assistant(s) that are designated by the Permittee. The Permittee shall revise its list of designated Assistants utilizing the FWC online permitting system prior to that Assistant conducting any gopher tortoise activities authorized under this permit. The FWC reserves the right to deny a Permittee's designation of an individual as its Assistant if rights of the individual to obtain gopher tortoise permits have been suspended or revoked. All activities conducted by Assistants must be under the supervision and responsibility of the Permittee. Assistants must be directly supervised on-site by the Permittee when the Assistant(s) are collecting gopher tortoise blood samples or during backhoe excavation of gopher tortoise burrows. The Permittee shall be as fully responsible for activities conducted by Assistants and contracted backhoe operators to the same extent as if they had themselves carried out those activities under this Permit.
- 14 The Permittee and its Assistant(s) must carry with them either this original permit, or a complete copy, while engaged in the permitted gopher tortoise activities. The Assistant(s) must also be in possession of a copy of the letter of designation from the Permittee.
- 15 The Permittee, by signing this permit, specifically agrees to allow authorized Commission personnel, upon presentation of credentials as may be required by law, access to sites to inspect the activities authorized under this permit.
- 16 A request for permit renewal or extension should be submitted at least 45 days prior to the expiration date of this permit.

A person whose substantial interests are affected by FWC's action may petition for an administrative proceeding (hearing) under sections 120.569 and 120.57 of the Florida Statutes. A person seeking a hearing on FWC's action shall file a petition for hearing with the agency within 21 days of receipt of written notice of the decision. The petition must contain the information and otherwise comply with section 120.569, Florida Statutes, and the uniform rules of the Florida Division of Administration, chapter 28-106, Florida Administrative Code. If the FWC receives a petition, FWC will notify the Permittee. Upon such notification, the Permittee shall cease all work authorized by this permit until the petition is resolved. The enclosed Explanation of Rights statement provides additional information as to the rights of parties whose substantial interests are or may be affected by this action.

The Permittee shall revise its list of designated Assistants utilizing the FWC online permitting system prior to that Assistant conducting any gopher tortoise activities authorized under this permit. The FWC reserves the right to deny a Permittee's designation of an individual as its Assistant if rights of the individual to obtain gopher tortoise permits have been suspended or revoked. All activities conducted by Assistants must be under the supervision and responsibility of the Permittee. Assistants must be directly supervised on-site by the Permittee when the Assistant(s) are collecting gopher tortoise blood samples or during backhoe excavation of gopher tortoise burrows. The Permittee shall be as fully responsible for activities conducted by Assistants and contracted backhoe operators to the same extent as if they had themselves carried out those activities under this Permit.
- 11 The Permittee and its Assistant(s) must carry with them either this original permit, or a complete copy, while engaged in the permitted gopher tortoise activities. The Assistant(s) must also be in possession of a copy of the letter of designation from the Permittee.
- 12 The Permittee, by signing this permit, specifically agrees to allow authorized Commission personnel, upon presentation of credentials as may be required by law, access to sites to inspect the activities authorized under this permit.
- 13 A request for permit renewal or extension should be submitted at least 45 days prior to the expiration date of this permit.

A person whose substantial interests are affected by FWC's action may petition for an administrative proceeding (hearing) under sections 120.569 and 120.57 of the Florida Statutes. A person seeking a hearing on FWC's action shall file a petition for hearing with the agency within 21 days of receipt of written notice of the decision. The petition must contain the information and otherwise comply with section 120.569, Florida Statutes, and the uniform rules of the Florida Division of Administration, chapter 28-106, Florida Administrative Code. If the FWC receives a petition, FWC will notify the Permittee. Upon such notification, the Permittee shall cease all work authorized by this permit until the petition is resolved. The enclosed Explanation of Rights statement provides additional information as to the rights of parties whose substantial interests are or may be affected by this action.

RENEWAL		City of Pt St Lucie	STATE LIC: 9935
Original tax:	\$15.10		
Penalty:			
Collection cost:		Paid 07/05/2019 15.10	0000-20190705-098171
Total:	\$15.10		

Law requires this Local Business Tax Receipt to be displayed conspicuously at the place of business in such a manner that it can be open to the view of the public and subject to inspection by all duly authorized officers of the county. Upon failure to do so, the local business taxpayer shall be subject to the payment of another Local Business Tax for the same business, profession or occupation.

Pursuant to Florida law, all Local Business Tax Receipts shall be sold by the Tax Collector beginning July 1 of each year and shall expire on September 30 of the succeeding year. Those Local Business Tax Receipts renewed beginning October 1 shall be delinquent and subject to a delinquency penalty of 10 percent for the month of October. An additional 5 percent penalty for each month of delinquency is added until paid, provided that the total delinquency penalty shall not exceed 25 percent of the Local Business Tax for the delinquent establishment.

In addition to the penalty, the Tax Collector is entitled to a collection fee of \$1 to \$5. This fee is based on the amount of Local Business Tax, which will be collected from delinquent taxpayers after September 30 of the business year.

This receipt is a Local Business Tax only. It does not permit the local business taxpayer to violate any existing regulatory or zoning laws of the state, county or city. It also does not exempt the local business taxpayer from any other taxes, licenses or permits that may be required by law.

Pursuant to Florida law, Local Business Taxes are subject to change.

TAB 5 – OTHER INFORMATION

STATEMENT OF WORK

EDC and our staff of professionals is perfectly positioned to complete any of the items associated with the City's environmental consulting needs. For over twenty years our professionals have worked within the City of Stuart boundaries for a variety of private and public projects. Within our project experience section of this submittal, EDC has proffered examples of recent and past projects that demonstrate our capabilities in the environmental consulting field. This includes City and County development review, wetland delineations, wetland impact permitting, listed species assessments and permitting, preserve management, as well as Phase I and Phase II environmental site assessments. It also should be noted that our team has worked with a multitude of regional municipalities during the development of various rules and regulations associated with their comprehensive plans and land development codes. The following further describes a typical scope of services associated with many of these items.

As part of previous work with public and private clients, EDC has reviewed our clients' development proposals in association with municipal codes. EDC has worked closely with staff members to assess compliance with land development code and comprehensive plans. We have also organized and participated in neighborhood meetings to introduce the project to the surrounding residents or businesses. Further, we then have worked closely through the public hearing process to aid our clients and/or commission members to make informed, accurate decisions based on testimony and site data. We pride ourselves on the delivery of accurate and timely information.

When working with municipal staff to create and/or modify various elements of code, EDC takes a wholistic approach to data collection and then a surgical approach to code revisions. After receiving direction from staff, we then analyze the issue and provide data that will allow staff to formulate a code solution. This includes an analysis of current and proposed code from the proposing entity as well as other municipalities within the region. Our team has worked with the City of Stuart during tree code and wetland mitigation revisions, with Martin County on wetland density transfers and elements of the comprehensive plan, and with St. Lucie County on tree mitigation and wetland buffer regulations, to name a few.

EDC's Phase I and Phase II services follow ASTM E 1527-13 Standard Practice for Environmental Site Assessments. The Phase I Environmental Site Assessment Process includes: (1) a review of environmental records and historical records to assess past uses and the potential for past on-site petroleum products or hazardous waste discharge; (2) a site reconnaissance to evaluate current site conditions; (3) interviews with present and past owners, operators, and occupants of the subject property; and (4) a written report that documents work performed, the findings of the assessment, and our opinions, conclusions and recommendations. Our assessments evaluate the presence or likely presence of hazardous substances or petroleum products on the subject property under conditions that indicate an existing release, a past release, or a material threat of a release of any hazardous substances or petroleum products which may adversely affect the subject property. In addition, sites in the vicinity of the property are assessed for potential hazardous substances or petroleum products which may have resulted in impacts or pose an imminent threat to the subject property. The Phase II scope of work often includes soil or groundwater sampling and a further contamination assessment/delineation based on the results of the study. EDC then proffers a proposed remediation plan for the site based on the data collected.

The wetland analysis for any site starts with a desktop review of soils, national wetland inventory maps, historic aeriels, and regional development patterns. EDC then utilizes this data to target our field assessment of the site. While onsite, we review soils, hydrology, and vegetation composition to determine if an area on the site complies with the state and/or federal definition of a wetland. Based on this, we then

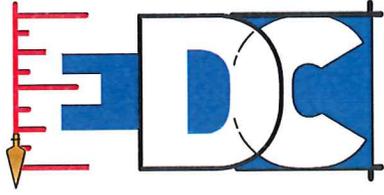

delineate the area by placing flagged points at the perimeter of the proposed wetland area. We then coordinate with regulatory staff for review and acceptance of the points and finally, coordinate with a surveyor to geomatically define the limits of the wetland. Finally, we assess the wetland utilizing UMAM to determine the quality of the wetland. Based on all of the information garnered, we then make recommendations to our client with regards to preservation, impacts and mitigation plans.

As part of the site review, EDC also coordinates with Florida Fish and Wildlife Conservation Commission (FWC) and the US Fish & Wildlife Service (FWS) to determine if there are any documented occurrences of species within the area of the site. We then conduct pedestrian surveys of habitat on the site to determine if there are listed flora and fauna within the parcel. If listed species are documented on the parcel, we immediately notify the client and determine the best case of action for the client. Our staff includes FWC gopher tortoise agents certified by the State of Florida to conduct listed species relocations and permitting. Within the City of Stuart, we have completed assessments for scrub jay, gopher tortoise, seagrasses, indigo snake, and other flora and fauna.

Overall environmental permitting must include an assessment of current and future potential impacts to the site. Not only does the current site's features need to be evaluated, but also the area's development trends. This includes zoning and land use so that a small preserve will not be situated next to a heavy industrial use. The environmental permitting must bring in elements of the presiding municipality, the state regulations, and federal regulations. This includes (depending on the complexity of the site) coordination with FWC, FWS, the Florida Department of Environmental Protection, South Florida Water Management District, US Army Corps of Engineers, and depending on the complexity of the site other agencies including the Environmental Protection Agency. Options such as onsite or offsite tree mitigation, wetland mitigation, listed species relocation, preserve area location and management, contamination remediation, littoral planting, landscaping, irrigation, drainage, code compliance, phosphorous & nitrogen loading, NPDES permitting & monitoring, and other items to ensure all environmental elements for a site are complete.

After a project has been defined and/or constructed, the parcel often times requires maintenance or monitoring of the site. When first established, many preserves will require maintenance to remove exotic vegetation and re-establishment of native plants. This includes hand or mechanical removal of vegetation and the supplemental installation of native plants. EDC has designed and overseen a multitude of preserve areas within the city and Martin County and we understand the long-term complexities of wetland and upland preserve area management.

Finally, environmental consulting services are not "cookie-cutter" in nature. EDC takes each and every project and task as an independent item. While we utilize the strength of our regional history, we also realize that new and emerging technology and trends may further strengthen our clients. Based on this we are available on 24-hour notice to serve our clients' needs as general consultants and for coordination of various needs. This may include municipal responses to an environmental situation (i.e. chemical spill, fire, algal bloom) or consultation on new and emerging information including sea level rise, climate change, carbon mitigation, or recycling. We understand that we are viewed as experts within the environmental field and our scope of services is designed to offer our clients the comfort and history of a long established, seasoned, but modern firm that is built for reliability.

TAB 6 – ADDENDA

Date: November 13, 2019
To: Prospective Bidders
Subject: **Addendum #1 to RFP #2020-101: Professional Environmental Consulting Services**

ADDENDUM #1

The purpose of this addendum is to provide clarification to questions submitted by prospective bidders.

- 1. Question:** Please explain how non-labor expenses are to be handled within the contract?
Example: Laboratory, analyses, specialized subcontractors, material, etc.

Answer: Professional personnel hourly rate schedule formulized in tab 3 "Price Proposal Form" shall include all services, material, supplies and any other items or requirements necessary to complete the work as described herein, including but not limited to out of pocket expenses, such as, identifiable communication expenses, reproduction costs, postage, printing, copying, and long distant telephone calls. Reimbursement for laboratory analyses and subcontractors shall be billed at cost times 1.0.
- 2. Question:** How do we present unit rates for support equipment for the contract? Example: Vehicles, drill rigs, scientific equipment, tools, etc.

Answer: Please list equipment with pricing and list separate. (you may place in Tab 3)
- 3. Question:** Can respondents submit only on services they are able to perform or is the respondent required to provide all of the services outlined in the RFP?

Answer: Yes, respondents can submit only on services they are able to perform.
- 4. Question:** What type of bonding is required for proposal submission?

Answer: The City has no requirements. It is the proposer's preference.
- 5. Question:** The licenses, Sunbiz, and Business Tax Receipt documentation listed in Section 1.16 page 7 of the RFP is to be provided under what tab?

Answer: Tab 3.
- 6. Question:** Under what tab is the Drug-Free Work Place Certification, Notification to Public Entity Crimes Law, and Conflict of Interest Disclosure Form to be included?

Answer: Tab 3.
- 7. Question:** Does a responding firm have to submit on all the services listed in the Statement of Work (Part 2, Section 2-1)?

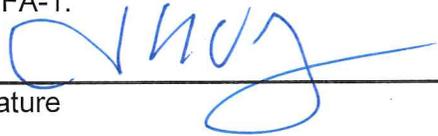

- Answer: No
8. Question: Will the City award more than one contract in association with this RFP?
- Answer: The City will determine based on proposals submitted.
9. Question: Is this a current contract? If so, can you please provide the name(s) of the incumbent?
- Answer: Yes. Miller Legg, EW Consultants, and PSI.
10. Question: Section 4.2, Tab 2 references listing all Florida clients within the last 5 years. Does this mean only Florida government agency clients or all clients including private sector clients?
- Answer: All Florida clients, both public and private.
11. Question: What funds have been budgeted annually for the proposed contract period?
- Answer: This service is not budgeted. It is on an as needed basis.
12. Question: How much has been spent annually on this contract?
- Answer: Approximately \$10,000.00 annually.
13. Question: Please confirm that subcontractors and/or subconsultants should not be included in the response and will not be able to be used to support any of the work assigned under the contract.
- Answer: Subcontractors and/or subconsultants should be included in the response (under tab 5).
14. Question: Would the City like to see an organizational chart, profiles (examples) and resumes? If so, which tab would the City like these to be placed?
- Answer: It is no necessary, however you may include this information in Tab 2.
15. Question: Section 1.16 Taxes & Licenses copies are required in our response. Which tab should this be located?
- Answer: Tab 3.
16. Question: May we include a table of content?
- Answer: Yes.
17. Question: Can you please provide a sample contract?
- Answer: See attached.

All other terms and conditions of this RFP remain unchanged.

This Addendum shall be considered an integral part of the ITB and this Addendum must be acknowledged, signed and returned with your submittal **by 2:30 p.m. on November 21, 2019.** Failure to comply will result in disqualification of your bid.

Answer: Please list equipment with pricing and list separate. (you may place in Tab 3)

3. Question: Can respondents submit only on services they are able to perform or is the respondent required to provide all of the services outlined in the RFP?

Answer: Yes, respondents can submit only on services they are able to perform.

4. Question: What type of binding is required for proposal submission?

Answer: The City has no requirements. It is the proposer's preference.

5. Question: The licenses, Sunbiz, and Business Tax Receipt documentation listed in Section 1.16 page 7 of the RFP is to be provided under what tab?

Answer: Tab 3.

6. Question: Under what tab is the Drug-Free Work Place Certification, Notification to Public Entity Crimes Law, and Conflict of Interest Disclosure Form to be included?

Answer: Tab 3.

7. Question: Does a responding firm have to submit on all the services listed in the Statement of Work (Part 2, Section 2-1)?

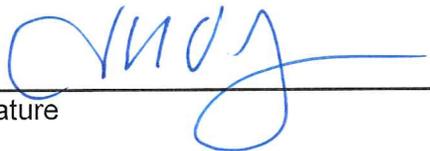

- Answer: No
8. Question: Will the City award more than one contract in association with this RFP?
- Answer: The City will determine based on proposals submitted.
9. Question: Is this a current contract? If so, can you please provide the name(s) of the incumbent?
- Answer: Yes. Miller Legg, EW Consultants, and PSI.
10. Question: Section 4.2, Tab 2 references listing all Florida clients within the last 5 years. Does this mean only Florida government agency clients or all clients including private sector clients?
- Answer: All Florida clients, both public and private.
11. Question: What funds have been budgeted annually for the proposed contract period?
- Answer: This service is not budgeted. It is on an as needed basis.
12. Question: How much has been spent annually on this contract?
- Answer: Approximately \$10,000.00 annually.
13. Question: Please confirm that subcontractors and/or subconsultants should not be included in the response and will not be able to be used to support any of the work assigned under the contract.
- Answer: Subcontractors and/or subconsultants should be included in the response (under tab 5).
14. Question: Would the City like to see an organizational chart, profiles (examples) and resumes? If so, which tab would the City like these to be placed?
- Answer: It is no necessary, however you may include this information in Tab 2.
15. Question: Section 1.16 Taxes & Licenses copies are required in our response. Which tab should this be located?
- Answer: Tab 3.
16. Question: May we include a table of content?
- Answer: Yes.
17. Question: Can you please provide a sample contract?
- Answer: See attached.

All other terms and conditions of this RFP remain unchanged.

This Addendum shall be considered an integral part of the RFP and this Addendum must be acknowledged, signed and returned with your submittal **by 2:30 p.m. on November 20, 2019.** Failure to comply will result in disqualification of your bid.

Alaina Knofla
Procurement Analyst
